# WHAT IS CLASSDOJO?

Classdojo it's a free app that allow us to create a virtual classroom, a true educational community formed between school and families, and where, even at a distance, we can share the most significant moments of the child's teaching-learning process: photos, messages, videos and a lot more.

It allows us to create, at a distance, a work environment close to the face-to-face environment, giving us a sense of belonging even when we are far away, strengthening the connection between School and Family, where everyone can participate and share their productions, and where families can closely monitor the progress of their children.

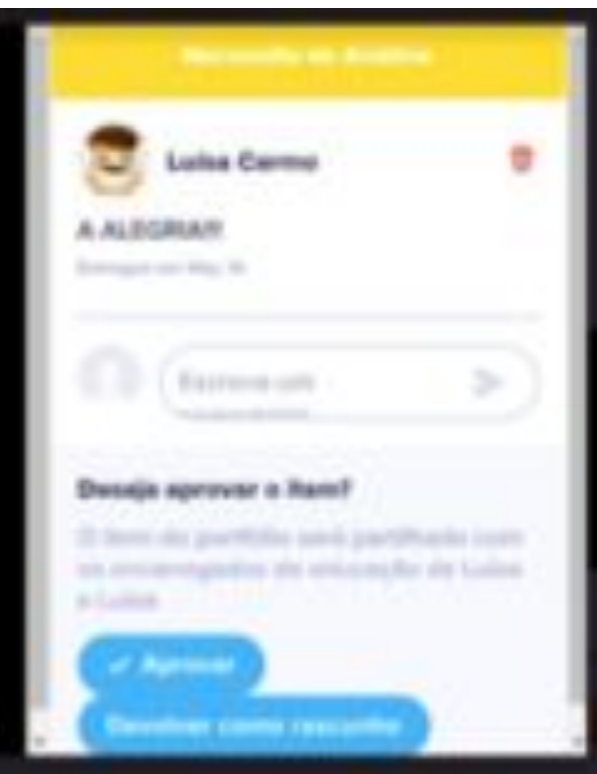

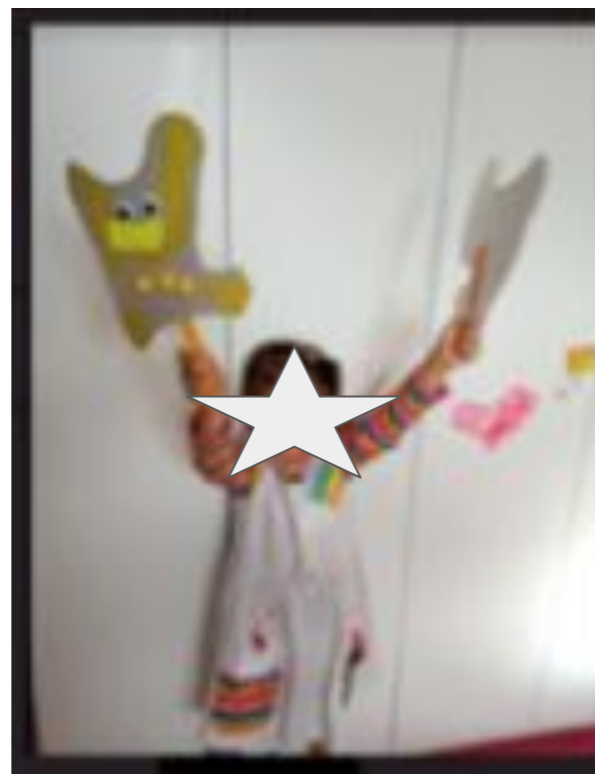

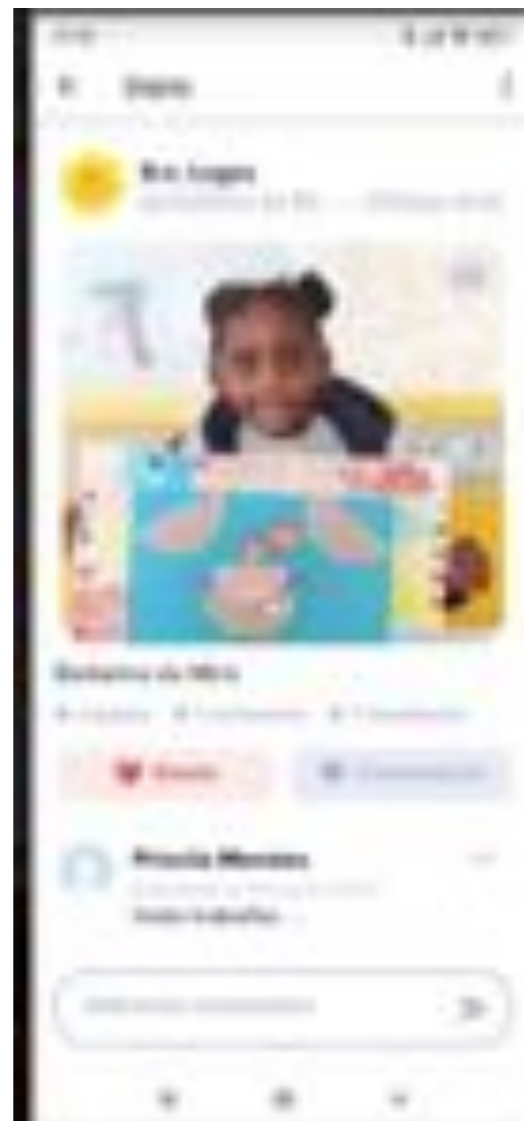

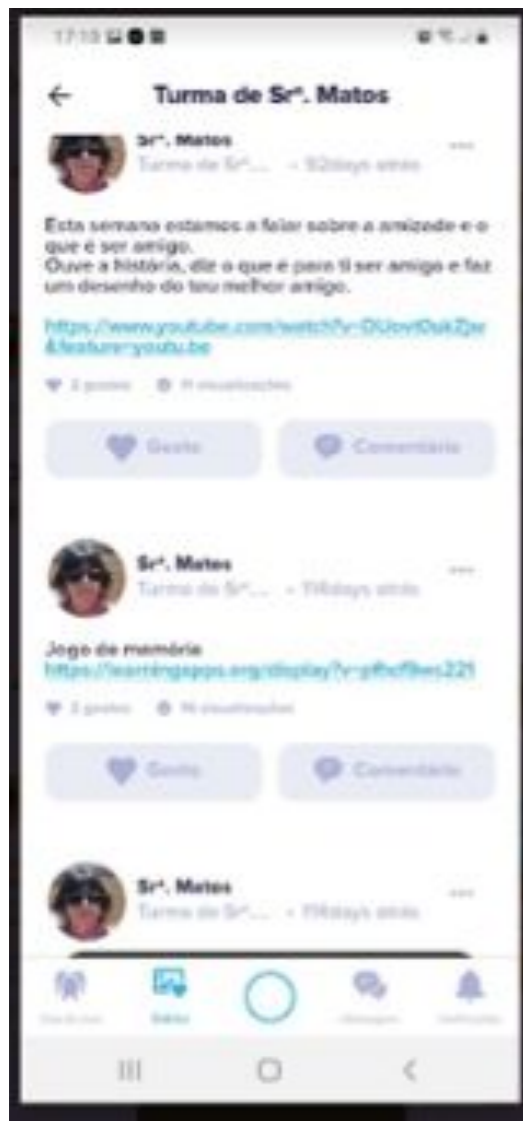

# WHAT IS CLASSDOJO?

It is a secure platform that can be used by everyone, regardless of where they are located, and works on all devices (computers, tablets, mobile phones, interactive whiteboards).

It gives us the possibility to give immediate feedback on the assigned activities / tasks, contributing to improve the child's self-confidence.

And most importantly, it allows the child to explore, learn, and develop their self-esteem through the positive reinforcement that the educator gives to the child and their family and, above all, to have fun....VERY FUN with their avatar!

**How to use the  
Classdojo app?**

**Click on the links below and find out how to use your  
ClassDojo application!**

# Activities proposal

# It's time to create! Let's do it?

- Create your classroom page on Classdojo
- Add students to the class
- Publish a positive message in the class diary!

# Spread and Impact

# Spread and Impact

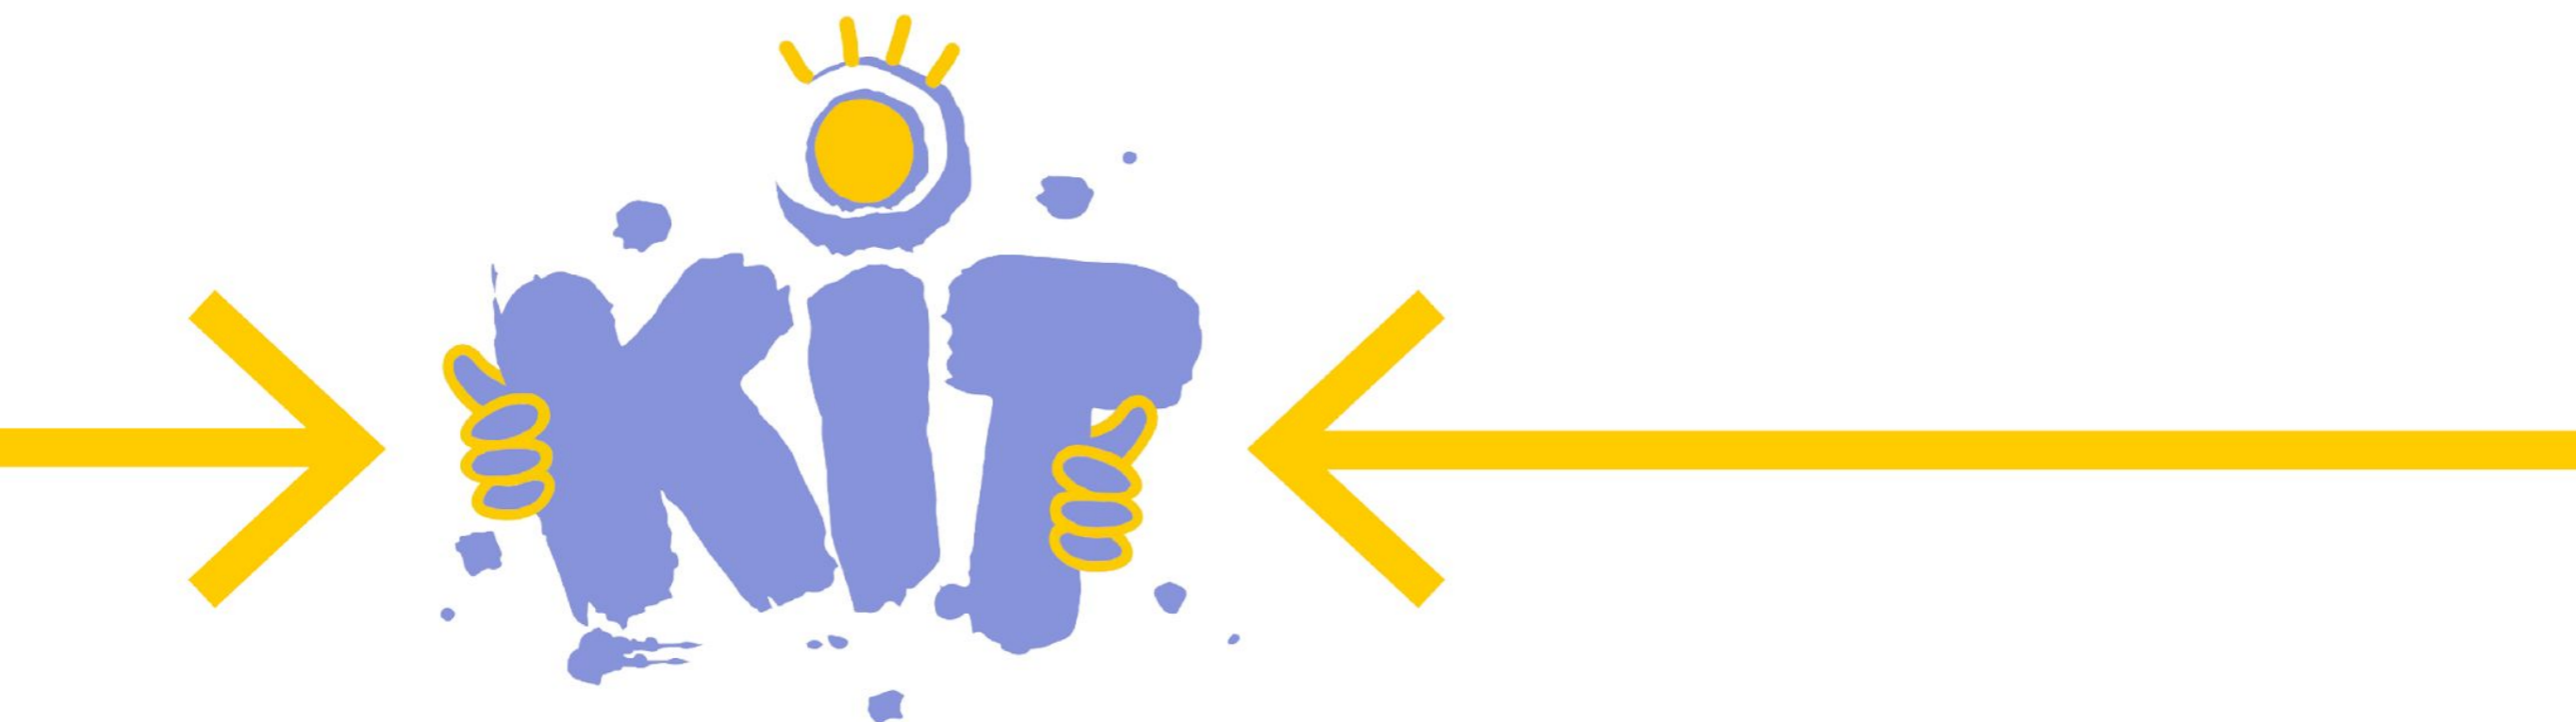

Families, and the rest of the educational community, can know the platform through:

- Families email
- Parents meetings
- Training given by the kindergarten teacher

In our school group, about 1800 children already used the Classdojo app and the feedback has been really positive to all!

Everyone recognizes it as an good asset to the School-Family communication.
