***“Our look at nature (from the window)”***

*Kindergarten La Gabbianella – Rimini*

## *Main elements*

- Creation of a circular activity, starting from the school garden to eventually get to the children's home and finally back to school after the period of quarantine.
- At school installation of a video projection of the children's gardens and barefoot walk-in sensory boxes to relive the experience virtually.

- Daily activities linked to the garden experience: group album (on canva) with the collection of pictures and drawings of children, thematic readings
- construction of an “explorer KIT” at school, that accompanied the children at home, to be then transferred at school
